## (ACLS) Advanced Cardiac Life Support (ITLS) International Trauma Life Support (PALS) Pediatric Advanced Life Support

These courses are designed for medical personnel who need training in ACLS, ITLS and PALS through the American Heart Association. Students need to purchase a textbook, go online to [www.heart.org/eccstudent](http://www.heart.org/eccstudent) and enter the code that is located on the 2nd page of the manual to access student materials and complete all the assignments prior to coming to class.

## Healthcare Provider CPR

This is a course designed to teach students to recognize emergency situations involving heart attack, choking, respiratory and cardiac arrest in adults, children and infant victims.

## Respiratory and Airway

In this class students will learn about the respiratory and airway system. We will be using pig lungs for hands-on demonstration.
