

Employee Return to Work / Self-Monitoring Questionnaire

Employees should answer “No” to the following questions prior to reporting to work on campus.

- a) ____ Do you have a fever (what is your temperature at last check)?
- b) ____ Do you have a cough?
- c) ____ Are you having difficulty breathing?
- d) ____ Do you have any underlying medical conditions such as COPD, asthma, etc.?
- e) ____ Are you having chills or repeated shaking with chills?
- f) ____ Do you have a headache?
- g) ____ Are you having muscle pain?
- h) ____ Do you have a sore throat?
- i) ____ Have you lost your sense of taste or smell?
- j) ____ Have you recently had close contact with a person with COVID-19?
- k) ____ Have you been diagnosed with COVID-19 or awaiting test results?
- l) ____ Have you traveled to known “hot spots” in state or out of state?
- m) ____ Have you traveled outside of the country in the past 14 days?
- n) ____ Have you been in contact with anyone who has traveled to domestic “hot spots” or out of the country?

A “yes” answer does not necessarily mean that the employee cannot return to work. Of course, multiple “yes” answers would suggest there may be a health concern that needs to be addressed. Also, “yes” answers to questions j – n would need to be further discussed before allowing an employee to return to work on campus. Any questions should be referred to the human resources department.
