- m) _____ Have you traveled outside of the country in the past 14 days?
- n) _____ Have you been in contact with anyone who has traveled to domestic “hot spots” or out of the country?

A “yes” answer does not necessarily mean that the student cannot attend class. Of course, multiple “yes” answers would suggest there may be a health concern that needs to be addressed. Also, “yes” answers to questions j – n would need to be further discussed before allowing a student to attend class. Any questions should be referred to the human resources department.
